

Monica graduated with a bachelor's degree from a private college in the Midwest. The chart below lists the college's tuition and fees and room and board costs for the four years Monica attended.

1. Complete the chart by calculating the following:
  - The total cost each year.
  - The percentage of each year's cost paid by federal and state grants.\*
  - The percentage of each year's cost paid by federal loans.\*
  - The percentage of each year's cost paid out-of-pocket by Monica's parents or with private student loans.\*
  - The totals for the four years Monica attended.

\*Round to the nearest dollar.

Year	Tuition and Fees	Housing	Meal Plan	Total	Grants 39%	Loans 15%	Out of Pocket 46%
1st	\$34,614	\$4,440	\$4,344	\$ _____ = \$ _____	\$ _____	\$ _____	\$ _____
2nd	\$35,835	\$4,617	\$4,485	\$ _____ = \$ _____	\$ _____	\$ _____	\$ _____
3rd	\$37,236	\$4,776	\$4,659	\$ _____ = \$ _____	\$ _____	\$ _____	\$ _____
4th	\$38,466	\$4,932	\$4,814	\$ _____ = \$ _____	\$ _____	\$ _____	\$ _____
<b>4 YEAR TOTALS</b>				\$ _____ = \$ _____	\$ _____	\$ _____	\$ _____

2. Compute the percentage increase for each of the college costs over the four years Monica attended. Round your answers to the nearest 1/10th percent.

Year	Tuition and Fees	% Change	Housing	% Change	Meal Plan	% Change
1st	\$34,614		\$4,440		\$4,344	
2nd	\$35,835	_____	\$4,617	_____	\$4,485	_____
3rd	\$37,236	_____	\$4,776	_____	\$4,659	_____
4th	\$38,466	_____	\$4,932	_____	\$4,814	_____

3. If 40% of the out-of-pocket payments were private loans taken out by Monica, what is the total amount of school debt she will have to repay? Round to the nearest dollar.
